

SEVEN CORRELATES OF EFFECTIVE SCHOOLS

Morrilton Primary relies on effective school research as the framework of their continuous School Improvement Program.

1. Safe and Orderly Environment
2. Climate of High Expectations for Success
3. Strong Instructional Leadership
4. Clear and Focused Mission
5. Opportunity to Learn and Scholar Time on Task
6. Frequent Monitoring of Scholar Progress
7. Positive Home-School Relations

MISSION STATEMENT

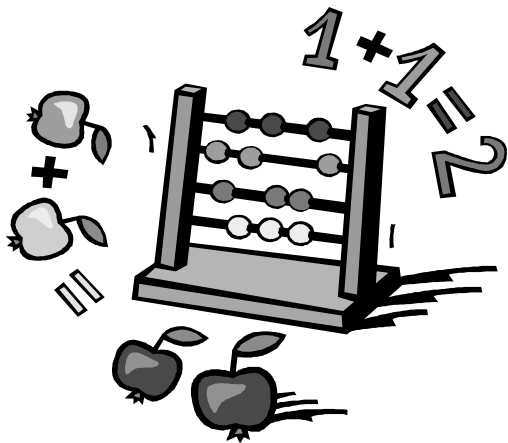

The mission of the Morrilton Primary School is to ensure that all scholars achieve high proficiency in the core subjects with an emphasis on math and literacy.

ABOUT MORRILTON PRIMARY SCHOOL

Morrilton Primary School is a result of the reorganization of grade levels in our South Conway County School District.

Our kindergarten consists of 10 kindergarten classes, and our first grade consists of 9 first grade classes. The following will be provided at each grade level: speech, occupational and physical therapists; special education instructors; Title I reading and math specialists; art; music; character education provided by school counselor; a free-flow media center; a computer lab; a cafeteria; a spacious fenced-in playground; and an auditorium.

Morrilton Primary has an enrollment of approximately 400 scholars. Our faculty and staff believe that all scholars have an equal opportunity to acquire the best education possible in order to become productive citizens in the future.

CURRICULUM

At Morrilton Primary we meet and exceed state standards. Along with our basic curriculum, we have "Intervention" and "Enrichment Classes." These are used to teach each scholar on his/her level to ensure high proficiency or advanced levels of learning. We also provide an intervention after-school program to assist scholars who are performing below the proficient level of learning.

A curriculum filled with educational experiences is provided for each scholar. Activities will be provided that accommodate multiple intelligence, and allow scholars to explore learning, using higher order level techniques.

-  Accelerated Math
-  Accelerated Reader
